

FOUNDATION CERTIFICATE COURSE

Sherlock Institute of Forensic Science India

About Institute

Sherlock Institute of Forensic Science, SIFS India came into existence in 2006; since then, it has been rendering its quality programs and pioneering in forensics, with a highly appreciative and endearing approach from its students. Striving to make its name and identity in the beginning years, Sherlock Institute of Forensic Science India has been a leading institute in India in the fields of forensics, marking its presence for about a decade. The institute has been operating actively in various areas, delivering inevitable excellence and commitment towards the betterment of society, breaking the saga that forensics has always been a neglected issue in an Indian setup, the institute aims to be an integral body providing reliable, efficient and competent programs in all areas of forensics, whether it be an investigation, education, or research.

To date, we have marked our skilled presence throughout the country, in the various government and private sectors. Our performance and presence have been highly appreciated and are considered accountable by our renowned list of patrons. To date, the institute is known to show its effective presence and participation in the grounds of forensic investigation, forensic education, forensic research and development. Its passionate and determined team of experts, along with the director, Dr. Ranjeet Kr. Singh, as its mentor, has led and guided the team with an affirmation to render excellent, error-free programs with a determination to excel in the grounds of forensics.

After marking our presence nationally, we have remarkably manifested our international presence after collaborating with international companies. We have our associates in England, Ireland, United States, United Arab Emirates, Nigeria, Ghana, Uganda, Thailand, Poland, Romania, Afghanistan, Mexico, Texas, Tanzania, Egypt, Jamaica, Indonesia, Italy, Australia, Maldives, and the checklist continues.

Objectives

Forensic Science is a multidisciplinary field of study that incorporates the scientific basics; therefore, strengthening the foundation becomes essential. Sherlock Institute of Forensic Science aims to prosper the learning foundation in the young and aspiring minds to avoid crime at its nascent stage. The programs offered by SIFS India seek to:

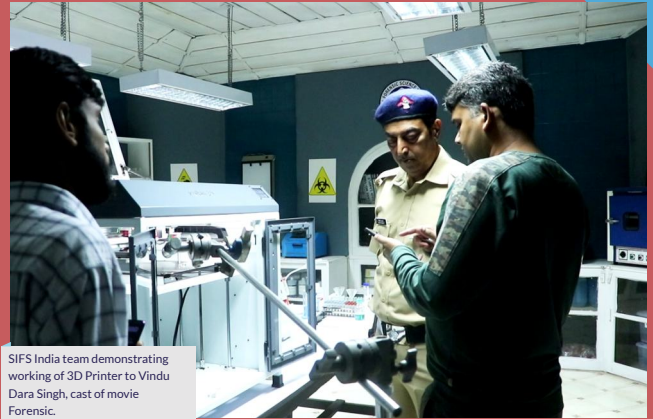

- Develop investigative instincts and skills while enhancing students' capability to broaden their horizons of thoughts
 - Inculcate skills and understanding of the basics of forensics
 - Develop instincts to avoid and tackle crime at its nascent stage
 - Familiarise students and faculty with renowned and accomplished experts in forensic science
- 
-

15+ Years of Excellence

Travel through our journey of admiration beheld with our esteemed members and learners around the globe. Marking its 17th year of notability, SIFS India has commemorated its presence in every media platform and amongst the heart and souls of its admirers.

Team of SIFS India assisting Vikrant Massey, lead actor in movie Forensic.

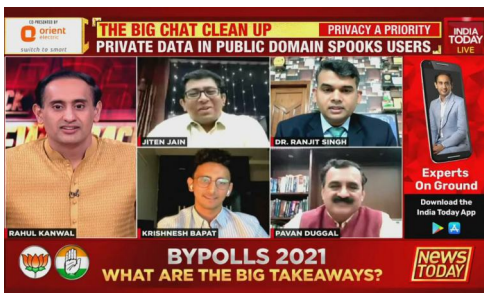

SIFS India team demonstrating working of 3D Printer to Vindu Dara Singh, cast of movie Forensic.

Cyber Security & OSINT

About Program

Every step deeper into the web, the slightest mistakes leave the data compromised, and security is questioned. Every minute, the amount of data being pushed to the Internet is staggering, leading to individuals preying on Open Source Intelligence (OSINT). OSINT is the information obtained without using specialized skills or technologies. Still, it can also contain sources exclusively available to subscribers, such as paywall content in newspapers or subscription journals. The course aims to imbibe cyber hygiene into learners' founding and learning stages and increase awareness of OSINT and its applications. It will focus on the collection and analysis of data from various sources to provide actionable intelligence and steps to remember to safeguard your data.

The learners will receive and gather knowledge regarding:

- Ethical Hacking and IT Security
 - Footprinting and Reconnaissance
 - Malwares and its analysis
 - Penetration Testing, Cryptography and Stenography
 - Open Source Intelligence
-

Graphology

About Program

Graphology has vast applications in sciences and daily life, finding personality traits from one of our expressive behaviours, handwriting. It can give an impression of a person's weaknesses and strengths, helping individuals to guard their mind and health and use it as a projective tool. Therefore, this program aims to practice graphology in all aspects, such as forensics, psychology, fraud etc. It aims to provide proper practice after detailed theoretical and practical sessions to prepare learners to handle any case involving handwriting. This pseudo-science would equip the learners with a full-fledged understanding of legal, practical, social, and personal affairs.

The learners will receive and gather knowledge regarding:

- Graphology and its Psychological Theories
 - Insights to Handwriting & Personality
 - Graphology at Psychosexual stages of development
 - Analysis of Grapho-logical Traits
 - Grapho Therapy
-

Forensic Accounting

About Program

Forensic Accounting is the speciality practice area that defines engagements resulting from genuine or projected disagreements or litigation. Forensic accountants, also referred to as Forensic Auditors or Investigative Auditors, often have to give expert evidence at the subsequent trial. Additionally, giant accounting corporations, many medium-sized firms, and various Police and Government agencies have specialist forensic accounting departments. The course aims to study forensic analytics, examining and analyzing the data.

The learners will receive and gather knowledge regarding:

- Frauds Investigation and its risk management
- Forensic Fraud Auditing Techniques
- Digital and Cyber Frauds and IP Theft
- Interviewing and Interrogation for combating fraud
- Forensic Accountant as an Expert Witness
